

9th September 2024

Dear Headteacher,

We are writing to highlight exciting opportunities for your students to engage in unique and immersive educational experiences at Peterborough Cathedral. We are delighted to offer curriculum-linked workshops that will not only enrich your students' learning but also deepen their connection to their local heritage.

Peterborough Cathedral, a cornerstone of our community and a magnificent example of historical architecture, offers an array of educational programs designed to complement various aspects of the national curriculum. Our workshops are tailored to provide students with a hands-on, interactive experience that aligns with their learning. These workshops cover a wide range of subjects, from History and STEMA to RE and Literature, all within the context of this awe-inspiring historical site.

We believe that visiting the Cathedral will provide your students with a deeper understanding of their local heritage, while also stimulating their curiosity and imagination. This is an opportunity for them to explore a significant part of their community's history in a setting that brings their learning to life.

We would love to arrange for all students from Peterborough schools to participate in these immersive workshops. Our team is dedicated to creating a memorable and educational experience for your students, and we are flexible in accommodating your school's needs to ensure that every student has the chance to take part.

Please do not hesitate to contact us to discuss how we can tailor these workshops to best fit your curriculum requirements and to arrange a visit. We are confident that this experience will be both educational and inspiring for your students.

Please find included a School Visits Programme that provides more information about what we can offer.

Thank you for considering this opportunity. We look forward to the possibility of welcoming your students to Peterborough Cathedral and to partnering with you to enhance their educational journey.

Alex Carton and Toni Morgan-Ray
